Database Inventory Entry

Please take a moment to check if this information is correct. If any corrections need to be made, use your browser's **Back** button to return to the previous screen (all of your field entries should still be there and can be modified easily). Otherwise, click on the **Okay** button at the bottom of this page to submit your data to the database administrator.

Public Body Name and Numeric Code:	Virginia Institute of Marine Science, #268
Database Title:	Submerged Aquatic Vegetation in Chesapeake Bay
Database Acronym:	SAV
Point of Contact:	David Wilcox
Phone Number:	(804) 684-7088
Date:	14 July 1997
Database Description:	This is a GIS database (Geographic Information System) containing digital maps of SAV distribution in Virginia waters, including Chesapeake Bay and Chincoteague Bay. This is undertaken in fulfillment of the Institute's mandate to conduct research and provide advisory service to the Commonwealth on matters related to the marine resources of Virginia and regional waters.
Date of Last Update:	June, 1997
Frequency of Update:	Yearly
Formats Available and Costs:	The data are freely available "as is" via the Internet at http://www.vims.edu/bio/sav . Formats include Arc/Info export coverages in both MS-DOS and Unix compressed versions. Additional requests will be processed at a rate of \$50/hour, with the time required to be determined according to the nature of the request.
